Notes:

- When choosing the one-semester and one-year Practical Chinese Course, students can take additional vocational skills training courses such as drone control, intelligent robot assembly and debugging, and 3D printing. An additional fee will be required;
- HSK Exam Training Courses taught on weekend can only be opened to international students in China with study visas; overseas students can participate online;
- Class time for Regular Chinese courses will be different for individuals according to student's Chinese language basics;
- Textbooks for less than one-year programs are included in the tuition. Textbooks for programs of one-year and above are not included in the tuition and shall be purchased separately; textbooks for all Practical Chinese Courses are included in the tuition;
- Series of courses, such as Chinese, Chinese Culture and Chinese studies, can be offered according to the needs of groups and individuals on flexible time. The curriculum can be customized and enriched with a variety of practical activities and researches. Consultations are welcome.
- No classes on holidays.
